

GDPR Statement

Amended 21st May 2018

Summary

This statement covers the services provided by Wintercorn Consulting Limited (Wintercorn) at www.wintercorn.com and other group websites.

The Data Controller for this website is Wintercorn Consulting Limited.

The General Data Protection Regulation (GDPR) which will be effective from May 25, 2018 is designed to protect the fundamental right to privacy for every EU resident.

Simply put, EU residents will now have greater say over what, how, why, where, and when their personal data is used, processed, or disposed.

This rule clarifies how the EU personal data laws apply even beyond the borders of the EU and as such is regulation affecting all members, and therefore does not require the UK to draw up new legislation and will apply automatically

Any organization that works with EU residents' personal data in any manner, irrespective of location, has obligations to protect the data. Wintercorn Consulting Limited (hereafter Wintercorn) is enhancing its existing data protection policies and providing the right tools and processes to support its users and customers to meet GDPR mandates.

Wintercorn Commitment

At Wintercorn, we have always protected our users' right to data privacy and protection. As a technology company we treat data security as paramount. Over the years, we have demonstrated our commitment to data privacy and protection by meeting and exceeding the industry standards for data processing and have implemented internal IT systems to uphold this.

How has Wintercorn prepared for GDPR?

We have thoroughly analysed our responsibilities to meet the GDPR requirements and have put in place a dedicated internal contact to drive us to meet them. Our ongoing initiatives are built upon –

- Appointing our DP (Data Processing) officer as project manager, as we are already on the current ICO register we are in good shape and understand what is required to be compliant
- Identifying where data is captured and how it is stored, then working on what upgrades are required to be compliant
- Logging how we process all information and highlighting data that is affected by this legislation
- Improving data breach procedures to identity theft or a confidentiality breach.
- Planning a re-education program for all staff and suppliers as required

When processing data we undertake checks and ensure the following:

- The processing is lawful, fair and transparent
- Transparent about what the data is being used for
- Data is collected for a specific purpose
- The data is necessary for the purpose
- The data must be accurate and kept up to date
- Data is not kept for longer than necessary
- The data is kept safe and secure
